

9. How would you describe the condition of the trees?

- Good (i.e. old trees with healthy crowns, not too much regrowth, no or little dieback)
- Average (e.g. some dieback, or trees coppiced from past thinning)
- Poor (e.g. bad dieback, no or few young trees)

10. Are shrubs:

- common
- scattered or patchy
- sparse or absent

11. How would you describe the ground layer of the vegetation?

- Mostly native grasses and wildflowers, few weeds or pasture plants
- Many weeds or pasture plants as well as native grasses and wildflowers
- Mostly weeds or pasture plants

12. Have there been any flora or fauna surveys of the site, or can you provide a list of plants or animals found there.

- Yes (please attach a list if possible)
- No

13. Is the site protected in any way?

- No formal protection
- Voluntary Conservation Agreement
- Land for Wildlife
- Wildlife Refuge
- DLWC Registered Property Agreement DLWC
- Joint Management Agreement
- Environment Protection scheduling or equivalent on a Council Local Environment Plan
- Greening Australia Fencing Agreement
- Other (please specify)

14. What would you like to get out of the CMN? (tick as many as appropriate)

- Regular newsletter and access to web site, with information about management of sites and issues relating to grassy woodland conservation
- Site visits from extension staff from DEC or other bodies, with expertise in grassy woodlands
- Help with obtaining funding for conservation works
- Help with preparing a management plan for the site
- Help with protecting the site (e.g through a Voluntary Conservation Agreement)
- Interaction with other members
- Recognition of your contribution to woodland conservation
- Join E-mail discussion group.

Expression of Interest

THE GRASSY BOX WOODLANDS

The Grassy Box Woodland Conservation Management Network is a network of remnants of grassy box woodlands in New South Wales, and of their managers and other interested people.

Its aims are:

- ❖ to help protect grassy box woodland remnants
- ❖ to support managers of the remnants who are managing them for their conservation values;
- ❖ to help site managers, scientists and the general public exchange their ideas, achievements and knowledge

If you: (please tick one box)

own or are a manager or custodian of a grassy box woodland remnant and wish to help protect and manage it for conservation goals (alone or in conjunction with other goals such as production) **please fill out both parts of the form**

or

have an interest in one or more grassy box woodland sites and their conservation and management, and feel you would like to know more and/or would be able to contribute knowledge, enthusiasm or support, **fill out Part 1 below.**

Part 1

Your Name:

The organisation you represent (if appropriate):

How can we best contact you?

Postal address:

Phone:

Fax:

Email:

What sort of involvement are you interested in?

Part 2. Tick one or more boxes and fill out as appropriate.

1. What is the location of your remnant(s) (distance and direction to nearest town)?

2. Are you:

owner of a grassy box woodland remnant
(go to question 4)

manager (but not owner) of a grassy box woodland remnant (please answer question 3 if you wish)

3. Who owns the site you manage?

Owner's name:

Owner's organisation:

Owner's contact addresses

Postal address:

Phone:

Fax:

Email:

Go to question 4

4. What is the tenure of the site?

- Freehold farmland
- Leasehold farmland
- Cemetery
- Travelling Stock Reserve
- Rail Easement
- Road Easement
- Council Reserve
- Crown Land Reserve
- Other (please specify)

5. How big is the site? ha

6. Is it fenced? Yes No

7. How is the site currently managed? (e.g. set-stocked, occasionally grazed, not grazed)

8. What are the main trees (if any) on the site?
(tick one or more)

- White Box (*Eucalyptus albens*)
- Grey Box (*Eucalyptus microcarpa*)
- Yellow Box (*Eucalyptus melliodora*)
- Blakely's Red Gum (*Eucalyptus blakelyi*)
- River Red Gum (*Eucalyptus camaldulensis*)
- Native Pine (*Callitris glaucophylla* or *Callitris endlicheri*)
- Other (please list)
