<p><b>Based on but with additions GBW-CMN</b> White Box-Yellow Box-Blakely's Red Gum Grassy Woodland and Derived Native Grassland Ecological Community Species List</p> <p>This species list is designed to provide information about plant species that can be found in the White Box-Yellow Box-Blakely's Red Gum Grassy Woodland and Derived Native Grassland ecological community listed under the <i>Environment Protection and Biodiversity Conservation Act 1999</i>. The species list was developed to complement the Listing Information Guide, and should be read in that context.</p> <p>It provides information on scientific and common names of the species, the kind of plant the species is, whether it is an 'important' species for the purposes of this ecological community and whether it is exotic or native, perennial or annual.</p> <p>The list is not exhaustive and not all of the species listed will occur in every patch of White Box-Yellow Box-Blakely's Red Gum Grassy Woodland and Derived Native Grassland. If there are any species that you think should be added to the list, removed from the list, or that are categorised incorrectly, please contact Peter Komidar at <a href="mailto:deh.gov.au">deh.gov.au</a>. As such, this document may change over time and you should check that you are referring to the most recent version of the list.</p> <p><b>Caution:</b> This list has been compiled from a range of sources. While reasonable efforts have been made to ensure the accuracy of the information, no guarantee is given, nor responsibility taken, by the Commonwealth for its accuracy, currency or completeness. The Commonwealth does not accept any responsibility for any loss or damage that may be occasioned directly or indirectly through the use of, or reliance on, the information contained in this list. The information contained in this list does not necessarily represent the views of the Commonwealth.
